

# Slide & Swing Windows & Doors

## PremiFold Doors KÖMMERLING®

The revolutionary PremiFold door is a PAS 24 certified and Document Q compliant slide and swing door system solution for the modern home.

### Features:

- Harnesses existing C70 and O70 Gold® profiles.
- No visible hinges and hardware.
- Incorporates both double and triple glazing.
- Capable of achieving large spans.
- Single leg highly secure glazing bead.
- Steel reinforcement is used where needed, to add additional structural strength.
- PAS 24 certified and Document Q compliant

## EASi-FOLD Windows

An innovative and revolutionary slide and swing solution for the modern home. A series of sashes independently glide along a track, pivot and fold into place. This ingenious system allows for greater use of space and maximises ventilation whilst offering high security options.

### Features:

- Manufactured from the Advance 70 chamfered and sculpted system.
- No visible hardware or hinges.
- Capable of achieving large spans.
- Single leg glazing for high security benefits.
- Independently gliding sashes / no mechanical rollers.
- Recycled Thermal Reinforcement for improved thermal efficiency or steel for additional structural strength.
